PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with strong expertise in web design, digital interfaces, and user experience. Proficient in Figma, Adobe Photoshop, and modern web frameworks, with solid foundational experience in database management and technical support. Quick learner possessing excellent communication, collaboration, and problem-solving skills, eager to contribute to innovative digital product projects.

TECHNICAL SKILLS

Design & Prototyping:	Figma, Adobe Photoshop, UI/UX Design, Web Prototyping, Responsive Layouts
Web Technologies:	Node.js, HTML5, CSS3, JavaScript Basics
Databases & Tools:	Firebase, MongoDB, Database Queries
Productivity Suite:	Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Technical Documentation

WORK EXPERIENCE

Digital Design & Project Lead
2023 – 2024 | Khulna, Bangladesh
Programming Sign Language Initiative (NWU Final Year R&D)

- Led end-to-end UI design, design system creation in Figma, and digital prototyping for assistive web interfaces.
- Designed and structured responsive web modules for sign language gesture lookup and interactive video/animation cards.
- Conducted accessibility evaluations following WCAG 2.1 AA guidelines and incorporated feedback from educators.
- Collaborated on backend database structuring using Firebase and Node.js for reliable, fast content delivery.

Computer Applications & IT Support Assistant
2022 – 2024 | Khulna, Bangladesh
Academic Computer Operations & Peer Lab (NWU)

- Assisted students with computing fundamentals, database assignments, and office productivity tools.
- Drafted comprehensive laboratory reports, documentation, and executive presentations in Word, Excel, and PowerPoint.
- Configured lab workstation environments, managed software installations, and provided technical troubleshooting.

Freelance Web & Digital Design Associate
2023 – Present | Bangladesh (Remote / On-site)
Independent Client & Academic Projects

- Designed clean, responsive web layouts, landing pages, and graphic branding assets for clients and initiatives.
- Built structured spreadsheets, data entry pipelines, and automated calculation models for administrative use.
